

# You don't have to Venture alone.

## ASSET-BASED LENDING AND PAYROLL FUNDING

TempWorks Venture is a program streamlined for small staffing business owners' payroll, billing and collections needs. With TempWorks Venture, you no longer need three separate vendors for your software, funding and back office needs. You get all three services rolled into a single provider: no additional personnel, and no duplicate record keeping.

## INTEGRATED PROCESSES. FROM COLLECTIONS TO FEE CALCULATION TO GL, IN A CENTRALIZED DATABASE

TempWorks Venture fully integrates all back office and funding in a seamless, paperless solution. Our technology makes applicant and client management a breeze. Payroll, billing and collections is quick and hassle free, allowing staffing entrepreneurs to focus on relationship building and growth.

## COST EFFECTIVE AT EVERY CORNER

Most payroll funding companies charge anywhere from 2.5 to 5 percent for invoice funding and payroll processing. Software

is an additional cost, and rarely if ever does the system integrate with the funding and back office provider. Often, simple features like resume parsing, integrated email and the ability for applicants to apply through a staffing company website are either not offered or come with a heavy price tag.

Not with TempWorks. Our solution delivers all of this and much more, including features found only in expensive high-end programs. All at rates that start around 2 percent and average about 3 percent. It integrates instantly with TempWorks Enterprise, the staffing industry's premier applicant tracking and customer relationship management software for more than 15 years.

## EXPERT ASSISTANCE

We help you start a staffing agency. TempWorks Venture includes progressive programs for asset-based lending and payroll funding with a flexible remittance system. Our Enterprise Select system is available with low startup costs and Enterprise Factoring Software, integrating all your processes. The Back Office system features solutions for payroll processing, electronic billing and accounts receivable, tax payments and more. All designed specifically for the staffing industry.

If you own a staffing company or are considering opening one, call TempWorks today. In our 15+ years we have helped hundreds of staffing companies achieve their goals. We know the most effective way to be a market leader.
