

# Easy access to information sparks great relationships.

## ENHANCED COMMUNICATION ENTERPRISE-WIDE

TempWorks WebCenter connects you to the people who make or break your staffing business: your clients and employees. Your clients get increased control over the procurement process, information management and their costs. You get enhanced client relationships, higher customer and employee satisfaction and more operational control.

## CLIENT PORTAL MAKES IT EASY TO DO BUSINESS WITH YOU

The WebCenter Client Portal is a fast, convenient way for your customers to post announcements and messages. They can check the status of pending orders, view job candidate profiles, review past and recent invoices, as well as accounts receivable summaries. WebCenter users can create and submit new orders, generate, customize, approve or decline timecards. Search and view stored timecard details. Track purchase order status, and download up-to-the-minute custom reports. Your customers will love your advanced real-time reporting – and

will come to depend on them. The Client Portal makes doing business with you easy and convenient.

## EMPLOYEE PORTAL PROVIDES COMPREHENSIVE, PERSONALIZED INFORMATION AND REPORTING

Through the WebCenter Employee Portal, your employees can view announcements and messages, print past W-2s, maintain personal histories, review year-to-date payroll information and assignment logs, edit and submit current timecards, view past timecards and paychecks and perform customized searches for open positions. All from their own personalized homepages.

## APPLICANT PORTAL AND JOB BOARDS MAKE IT EASY FOR YOUR STAFF TO FIND THE PERFECT FIT

Applicant Portal lets applicants view detailed job board postings, choose and store jobs in a complete job cart, submit profiles and resumes and even email postings to others. From the convenience of their home or mobile phone, applicants can browse through your job openings and apply immediately!

Like all TempWorks products, WebCenter portals integrate smoothly with other TempWorks products and services. Your front- and back-office functions flow seamlessly from initial talent recruitment and sales through payroll, invoicing, and collection.
